

High School Program

2011/2012

Welcome to the Los Angeles Academy of Figurative Art's community. We are excited to offer high school students the opportunity to study college-level art classes with our illustrious instructors, who are comprised of working professionals who share their wisdom, passion and experience with each student. We have several classes during the evening or weekends to accommodate busy schedules.

High school students of all levels are encouraged to take classes to develop their foundational skills in order for them to achieve their artistic goals.

Our classes are conveniently held 7-days a week and run between 3 to 5 hours, once a week. Classes are not exclusive to high school students and space is limited to select classes.

High School students in our 8 and 10-week program enjoy an exclusive use of studio space on Mondays between 2:30pm – 10:00pm. This allows the students time to work on their school or personal projects.
